

A NOTE FROM ANDREW

Hi, I'm Andrew Wenzler.

I founded Relien Property Maintenance to be the partner that property owners actually want to call. One contact. One standard of work. A name behind every job.

Most property services exist to fix things when they break. I built Relien to be different, to maintain your home with the same predictability you expect from your lawn service, your pest control, or your HVAC tune-up.

You don't think about those services. You shouldn't have to think about ours either.
